

### **John Julius Vogl (Mullins 1950-1953)**

After a long struggle with motor neuron disease, John passed away on 22nd of April 2015.

After leaving college John went to Wits where he obtained a degree in physics and chemistry.

He married Sandy Withan in 1960 and they had a son and three daughters.

He worked in his field until in 1979 when an Australian company in Sydney offered him a position for which he was particularly well qualified and the family moved from South Africa to Australia. After his retirement in 1996 he continued to work part-time in the management and administration of his daughters' businesses.

For many years he met regularly with three Sydney-based contemporary OA's and last year they celebrated 60 years since they left College.

He will be greatly missed by his very close-knit family and his friends.
